WASHINGTON, June 29 - Special to the New Fork Tribune. - The Washington Republican professes to have a dispatch that the Ninth New York Regiment has reached and occupied Harper's Ferry. No rebel troops were seen. This is doubtful.

Another skirmich occurred at Senaca yesterday between Everett's battalion and two hundred rebols. Two or three of the atter were killed and a number wounded The New York World has a special dispatch from Fortress Monroe, stating that rises.
Col Allen, of the New York First Regiment, was arrested to day by order of Gen.
Butler. It then stated that Alemand cher
officers have arrested many arms reconsimilate later who have been released by

Outler.
On Friday word came that a field of wheat On Friday word came that a field of wheat belonging to Major Thompson, of the rebel army, was being gathered to be sent to Yorktown to the rebels, and some had the assurance to ask Colonel Ailea for horas......The St.

and a squad of men were sent to prevent the wheat from boing taken. Soon after the wheat field was in flames, and twenty acres destroyed. General Butler thereupon ordered Col. Alien to report at headquarters under arrest, and paraded his regiment under command of Lieutenant-Colonel

The dispatch further volunteers the remark that this and other movements of General Builer cause his logalty to be General Builer cates his loyary to be suspected. It ays it is rumored that regular officers are preparing a petition for his removal, and that the New York regiments are classroom to have a Major-General from their own State, and also, that all of the afficers, both regular and volumed to the afficers, both regular and volumed the first market is dull and the afficers. erat from their own State, and also, that all of the officers, both regular and volun-teer, will declins to attack in battle under General Butler. The arrast causes considerable excitement at the Portress.

The Tribune remarks, on the above epecial dispatch, that it has no denbt Col Allen deserved to be arrested. He left the Police Department of New York last fall on account of drunkenness, and the above dispatch evidently was sent by some friend of Alien's. It considers the imputation of loyalty as absurd, as do the major-

ginia was literally exhausted.

It is believed that our troops will orose
the Potomac, partly at Williamsport and
partly at Shepard's ford, place miles below.
Both are excellent fords. All are inspired at the idea of a forward movement.

Intelligenco from Stephenson's Station, where General Johnston's headquarters now about him, at the most, is only 5,000. He has 16 pieces of artillery; of theus 6 are rifled 12 pounders, two are 4 pounders, howitzers, eldelyle, and 6-pound howitzer; of these last, none are rifled. The troope are all well drilled, but not so well equipped as ours. They are under very strict discipline, but seem discontented.

Two regiments, one of Alabama and one of Mississippl rebels, reached Harper's Ferry this morning and desiroyed the balance of the trussel work of the railroad bridge. They then came over to the Mary-land shore, seized atl the boats they could will encamp to-motrow night at Shepardrlown, and that some regiments will be a n and rather dail, and pricesabout the m
